

Health Pool of South Dakota

When the Health Pool began in 1995 the goal was to provide the best benefits possible for South Dakota's public agencies. Since that time, the pool has grown to 84 Member entities covering over 1200 lives. We are proud that our members love their coverage, plan options, and flexibility that a non-profit, member-owned organization affords them including:

- ◆ Six traditional plans to choose from plus a HSA plan
- ◆ \$500, \$1,000, \$2,500, and \$3,200 (HSA) individual deductibles
- ◆ Preventive Services – 100% paid in-network.
- ◆ Pharmacy – choice of co-pay plan or co-insurance plan – BlueRx Value Plus
- ◆ Life and AD&D insurance (optional)
- ◆ COBRA Administrative Services
- ◆ No monthly Administrative Fees
- ◆ All plans ACA compliant
- ◆ Claims administered by Wellmark.
- ◆ Extensive provider network (100% of hospitals, 99% physicians enrolled)

Enrolling in the Health Pool is simple! If you currently have coverage for your employees, I will need:

- Your Entity's last three years' claims experience with your current insurer
- Your current deductible/an outline of the plan you currently have
- How many employees you will enroll (single, Employee +1, Employee + Children, Family)

If you do not currently have a group plan, please ask your employees to confirm whether or not they have experienced any large, catastrophic claims within the last three years with their individual insurance.

Im available for questions!
